

Babbacombe CofE Primary School

9th May, 2007

Dear Mr Powe,

I would just like to say how much we enjoyed our visit to Kent's Cavern last Wednesday. Terry really engaged the children in the history of the caves and they were able to relate to what he said with ease. He made it fun, interesting and realistic, so that they could empathise with the lives that the cave people led.

Equally, the children found the Woodland Trail and the Archaeological Dig great fun. Seeing examples of the things that cave people used on a day-to-day basis made the experience come alive and it was amazing how excited the children were at finding (and being able to keep!) a fossilised shark's tooth or a tiny gemstone. Furthermore it is a good example of how archaeologists find their treasures! Both these activities are a great asset to your caves complex and I am sure that all your visitors will enjoy them just as much as we did.

Thank you, also, to all your members of staff in the shop for having great patience when dealing with 27 children and their pocket money. Everyone made us feel very welcome and nothing was too much trouble.

We look forward to seeing you again next year.

Kind regards,

Liz Westcott
